

تعميم الهيئة العامة للطيران المدني
General Authority of Civil Aviation Circular

To:

All air operators, ground service providers, airport operators, aircraft maintenance companies, shippers, freight forwarders and air cargo companies operating at airports in the kingdom of Saudi Arabia.

Subject:

The update contained in Addendum No. 1 of the International Civil Aviation Organization's Technical Instructions (ICAO Doc 9284).

Reference:

Technical Instructions for the safe transport of dangerous goods by air (ICAO Doc 9284).

Instructions:

1- Air operators, ground service providers, airport operators, aircraft maintenance companies, shippers, freight forwarders and air cargo companies operating at airports in the kingdom of Saudi Arabia must comply and implement with the update contained in Addendum No.1 of the International Civil Aviation Organization's Technical Instructions (Doc 9284) effective from this date, Air operators must update all relevant operational manuals accordingly and incorporate the associated safety precautions into their onboard cabin crew safety announcements.

2- Air operators shall add the updated addendum in their websites during the tickets booking process and communicate that to all passengers as follows:

- Prohibits the recharging of power banks while on board aircraft.
- Limits the number of power banks that can be carried by each person to no more than two.
- Recommends against using power banks to recharge portable electronic devices while on board aircraft.

3- All airlines operating in the airports of the Kingdom of Saudi Arabia, including Private Aviation, shall comply with circulars and procedures issued by GACA.

Attachment (s):

- The updated Addendum No. 1 of Technical Instructions for the safe transport of dangerous goods by air (ICAO Doc 9284).
- Electronic bulletin in Arabic and English languages.

الى:

جميع شركات الطيران ومقدمي الخدمات الأرضية ومشغلي المطارات وشركات الصيانة، شركات وكالات الشحن وشركات الشحن الجوي العاملين بمطارات المملكة العربية السعودية.

الموضوع:

التحديث رقم ١ للوثيقة ٩٢٨٤ للتعليمات الفنية لمنظمة الطيران المدني الدولي.

المرجع:

التعليمات الفنية للنقل الآمن للبضائع الخطرة عبر الجو (ICAO Doc 9284).

التعليمات:

١- يجب على شركات الطيران ومقدمي الخدمات الأرضية ومشغلي المطارات وشركات الصيانة، وشركات الشحن ووكالات الشحن وشركات الشحن الجوي العاملين بمطارات المملكة العربية السعودية التقيد والالتزام والعمل بالتحديث رقم ١ للوثيقة ٩٢٨٤ للتعليمات الفنية لمنظمة الطيران المدني الدولي اعتباراً من تاريخه، كما يجب على المشغل الجوي تضمين ذلك في جميع الأدلة التشغيلية ذات الصلة وتحديثها، والتأكد من تضمين ذلك ضمن احتياطات السلامة التي يقدمها طاقم المقصورة على متن الطائرة.

٢- يجب على شركات الطيران إضافة التحديث في مواقعهم الإلكترونية عند حجز التذاكر وإبلاغ جميع المسافرين بذلك حسب التالي:

- حظر إعادة شحن الشواحن المحمولة أثناء التواجد على متن الطائرة.
- الحد من عدد الشواحن المحمولة التي يجوز لكل فرد حملها إلى ما لا يزيد عن اثنين.
- التوصية بعدم استخدام الشواحن المحمولة لشحن الأجهزة الإلكترونية المحمولة أثناء التواجد على متن الطائرة.

٣- التأكيد على كافة شركات الطيران العاملة بمطارات المملكة العربية السعودية بما يشمل الطيران الخاص بالالتزام بالتعاميم والأوامر والتعليمات التي تصدرها الهيئة العامة للطيران المدني.

المرفقات:

- التحديث رقم ١ للتعليمات الفنية للنقل الآمن للبضائع الخطرة عبر الجو (٩٢٨٤) ICAO.
- النشرة الإلكترونية باللغتين العربية والإنجليزية.

AMENDMENT TO THE *TECHNICAL INSTRUCTIONS FOR THE SAFE TRANSPORT OF DANGEROUS GOODS BY AIR* (DOC 9284) RELATING TO POWER BANKS

1. On 27 March 2026, the Council of the International Civil Aviation Organization (ICAO) approved an amendment to the provisions for the carriage of lithium batteries (including power banks) and portable electronic devices by passengers and crew contained in the 2025-2026 Edition of the *Technical Instructions for the Safe Transport of Dangerous Goods by Air* (Technical Instructions, Doc 9284). The amendment:

- prohibits the recharging of power banks while on board aircraft;
- limits the number of power banks that can be carried by each person to no more than two; and
- recommends against using power banks to recharge portable electronic devices while on board aircraft.

The restrictions do not apply to power banks carried by crew to fulfil operational requirements. However, they do apply to power banks carried by crew for personal use.

2. The Council's decision was based on recommendations from the Air Navigation Commission and its Dangerous Goods Panel (DGP) following discussions at the 42nd Session of the ICAO Assembly on the need to manage increasing fire risks associated with lithium batteries in aircraft cabins. A detailed analysis conducted by the DGP that led to the recommendations is provided in the [report](#) of its thirtieth meeting, held in Montréal from 6 to 10 October 2025.

3. The amendments are contained in Addendum No. 1 to the 2025-2026 Edition of the Technical Instructions which became applicable on 27 March 2026. The addendum is available on www.icao.int/safety/DangerousGoods under "Technical Instructions". Additional information concerning the amendment is available on www.icao.int/dangerous-goods/guidance-material (English only).

Issued under the authority of the Secretary General

تعديل على التعليمات الفنية للنقل الآمن للبضائع الخطرة بطريق الجو (DOC 9284) بشأن الشواحن المحمولة

١- في ٢٧/٣/٢٠٢٦، وافق مجلس منظمة الطيران المدني الدولي (الإيكاو) على التعديل المقترح إدخاله على أحكام نقل بطاريات الليثيوم (بما في ذلك الشواحن المحمولة) والأجهزة الإلكترونية التي يحملها الركاب والطاقم، الواردة في طبعة ٢٠٢٥-٢٠٢٦ من "التعليمات الفنية للنقل الآمن للبضائع الخطرة بطريق الجو" (التعليمات الفنية، الوثيقة Doc 9284). يهدف التعديل إلى:

- حظر إعادة شحن الشواحن المحمولة أثناء التواجد على متن الطائرات؛
 - الحدّ من عدد الشواحن المحمولة التي يجوز لكل فرد حملها إلى ما لا يزيد عن اثنين؛
 - التوصية بعدم استخدام الشواحن المحمولة لشحن الأجهزة الإلكترونية المحمولة أثناء التواجد على متن الطائرات.
- ولا تنطبق هذه القيود على الشواحن المحمولة التي يحملها الطاقم لتلبية المتطلبات التشغيلية، لكنّها تنطبق على تلك التي يحملها الطاقم للاستخدام الشخصي.

٢- استند قرار المجلس إلى توصيات لجنة الملاحة الجوية وفريق خبراء البضائع الخطرة (DGP) إثر المناقشات التي دارت أثناء الدورة الثانية والأربعين للجمعية العمومية للإيكاو حول ضرورة معالجة مسألة تزايد مخاطر اشتعال الحرائق المرتبطة ببطاريات الليثيوم في مقصورة الركاب بالطائرة. ويرد التحليل المفصّل الذي أجراه فريق خبراء البضائع الخطرة والذي أسفر عن التوصيات المقدّمة في تقرير اجتماعه الثلاثين، المنعقد في مونتريال، من ٦ إلى ١٠/١٠/٢٠٢٥.

٣- وترد التعديلات في الإضافة رقم (١) إلى طبعة ٢٠٢٥-٢٠٢٦ من التعليمات الفنية التي أصبحت واجبة التطبيق في ٢٧/٣/٢٠٢٦. الإضافة متاحة على الرابط www.icao.int/safety/DangerousGoods تحت "التعليمات الفنية"، بينما تتوفّر معلومات إضافية بشأن التعديل على الرابط www.icao.int/dangerous-goods/guidance-material (باللغة الإنجليزية فقط).

صدرت بموجب سلطة الأمين العام

Doc 9284-AN/905
2025–2026 Edition
ADDENDUM NO. 1
27/3/26

INTERNATIONAL CIVIL AVIATION ORGANIZATION

**TECHNICAL INSTRUCTIONS FOR THE SAFE TRANSPORT
OF DANGEROUS GOODS BY AIR**

2025–2026 EDITION

ADDENDUM NO. 1

The attached addendum should be incorporated into the 2025–2026 Edition of the Technical Instructions (Doc 9284) and is applicable from 27 March 2026.

(3 pages)

**TECHNICAL INSTRUCTIONS FOR THE SAFE TRANSPORT OF
DANGEROUS GOODS BY AIR**

The following amendment is approved and published by decision of the Council of ICAO and should be incorporated into the 2025–2026 Edition of the Technical Instructions (Doc 9284) with an applicability date of 27 March 2026:

In Part 1, Chapter 2, page 1-2-1:

— paragraph 2.2.1, *replace* sub-paragraph b) with the following:

- b) aerosols, alcoholic beverages, perfumes, colognes, liquefied gas lighters and portable electronic devices containing lithium metal or lithium ion cells or batteries provided that they meet the provisions of 2.2.2 carried aboard an aircraft by the operator for use or sale on the aircraft during the flight or series of flights, but excluding non-refillable gas lighters and those lighters liable to leak when exposed to reduced pressure;

— paragraph 2.2.1, *replace* sub-paragraph e) with the following:

- e) electronic devices, such as electronic flight bags, personal entertainment devices and credit card readers, containing lithium metal or lithium ion cells or batteries and spare lithium batteries for such devices or power banks carried aboard an aircraft by the operator for use on the aircraft during the flight or series of flights, provided that they meet the provisions of 2.2.2. Conditions for the carriage and use of these electronic devices and spare batteries (including power banks) must be provided in the operations manual and/or other appropriate manuals as will enable flight crew, cabin crew and other employees to carry out the functions for which they are responsible.

— *add* new paragraph 2.2.2 as follows:

2.2.2 The following conditions must be met for lithium cells or batteries (including power banks) and the devices they power referred to in 2.2.1 b) and e):

- a) spare lithium batteries and power banks must be individually protected so as to prevent short circuits when not in use;
- b) measures must be taken to prevent unintentional activation of the portable electronic devices; and
- c) the batteries must:
 - 1) be of a type which meets the requirements of each test in the UN *Manual of Tests and Criteria*, Part III, subsection 38.3; and
 - 2) for lithium metal batteries, not exceed a lithium content of 2 g and for lithium ion batteries, not exceed a Watt-hour rating of 100 Wh.

— *renumber* subsequent paragraphs accordingly.

In Part 8, Chapter 1, page 8-1-3, Table 8-1, *amend* item 1) as follows:

Dangerous Goods	Location		Approval of the operator(s) is required	Restrictions
	Checked baggage	Carry-on baggage		
Batteries				
1) Lithium batteries (including power banks and portable electronic devices)	Yes (except for gh), i) and j))	Yes	(see c) and d))	a) each battery must be of a type which meets the requirements of each test in the UN <i>Manual of Tests and Criteria</i>, Part III, subsection 38.3; b) each battery must not exceed the following: — for lithium metal batteries, a lithium content of 2 g; or — for lithium ion batteries, a Watt-hour rating of 100 Wh; c) each battery may exceed 100 Wh but not exceed 160 Wh Watt-hour rating for lithium ion with the approval of the operator; d) each battery may exceed 2 g but not exceed 8 g lithium content for lithium metal for portable medical electronic devices with the approval of the operator; e) no more than two spare batteries meeting the requirements of c) or d) may be carried per person; ef) for portable electronic devices containing batteries: — measures must be taken to prevent unintentional activation and to protect the devices from damage; — the devices should be carried as carry-on baggage; however, if carried as checked baggage, the devices must be completely switched off (not in sleep or hibernation mode) if the batteries exceed: — for lithium metal batteries, a lithium content of 0.3 g per device; or — for lithium ion batteries, a Watt-hour rating of 2.7 Wh per device; fg) batteries and heating elements must be isolated in portable electronic devices capable of generating extreme heat, which could cause a fire if activated, by removal of the heating element, battery or other components; gh) spare batteries, including power banks: — must be carried as carry-on baggage; and — must be individually protected so as to prevent short circuits (by placement in original retail packaging or by otherwise insulating terminals, e.g. by taping over exposed terminals or placing each battery in a separate plastic bag or protective pouch); i) power banks: — must be carried as carry-on baggage; — must not be recharged while on board the aircraft; — should not be used to recharge a portable electronic device while on board the aircraft; — no more than two power banks may be carried per person; and

<i>Dangerous Goods</i>	<i>Location</i>		<i>Approval of the operator(s) is required</i>	<i>Restrictions</i>
	<i>Checked baggage</i>	<i>Carry-on baggage</i>		
				— must be individually protected so as to prevent short circuits when not in use (by placement in original retail packaging or by otherwise insulating terminals, such as by taping over exposed terminals or placing each power bank in a separate plastic bag or protective pouch); h) baggage equipped with a lithium battery(ies) exceeding: — for lithium metal batteries, a lithium content of 0.3 g; or — for lithium ion batteries, a Watt-hour rating of 2.7 Wh must be carried as carry-on baggage unless the battery(ies) is removed from the baggage, in which case the battery(ies) must be carried in accordance with g); i) no more than two spare batteries meeting the requirements of c) or d) may be carried per person. <i>Note.— The restrictions in a) and the applicable limits in b), c), d) or e) apply to all batteries under this item, that is those contained in portable electronic devices, spare batteries, power banks and baggage equipped with lithium batteries.</i>
